Old Business

None at this time.

New Business

Approve projects under the Governor’s Bridge Program

Trent said that our region will be receiving funding of approximately \$6,000,000. Trent outlined the current projects and what was added and changed on that list. Tom said that he understood that the money was created from the bridge program. He added that he was concerned about funding for the Gibson project in West Plains. Michael Brandon said that it will take time to scope the Gibson project. Beverly asked if there is a timetable for the projects on the list to be completed. Michael said that the money needs to be allocated to the projects and that is due March 13, 2020. The group voiced concerns about the quick time needed to make decisions on funding. Michael added that during FY21-FY23, MoDOT wants to see that these needs are delivered. Tom felt at this time the group should proceed with finalizing the list, and outlined the list. After group discussion, it was decided to vote on the list. Motion to approve the list as presented below was made by Scott Long and seconded by David Trotter. Motion carried with Zach Williams, Beverly Hicks and Tom Stehn opposing and voting nay.
